

# Chancellor's Message

**I**t is an honor to write for the Annual Report 2020-21 as the Chancellor of FATA University. Universities aim at providing higher education to open vistas for the bright future of the youth and help them meet the challenges of the modern world. In this regard, FATA University, offers quality education through modern academic techniques and innovative research skills. The university also provides learning opportunities and engages students in civic activities so as to develop a sense of civic responsibility and help in eradicating social evils from the marginalized society. Being a new university, it is also focusing on improving its infrastructure to provide a congenial atmosphere to the students.

Besides creating a competitive and conducive learning environment, I appreciate the efforts of the university which focus on building an inclusive community based on inter-cultural and interfaith harmony. I see it as a way forward to social and communal harmony which is very important for the prosperity of a nation. The vision of FATA University is to pave a way for achieving

a distinctive status, nationally and internationally.

I am determined to provide my support to the university in imparting quality education to the youth of the country. I also believe that it is just the beginning and with continuous effort, the university will achieve the best place in the academia.

I wish FATA University all the success it has dreamt of!

**Shah Farman**

Governor Khyber Pakhtunkhwa

# Vice Chancellor's Message

I am so delighted in joining FATA University for the greater cause of building a platform for providing higher education in the erstwhile Federally Administered Tribal Areas (FATA), especially in the face of reality that it is the first ever university established for the youth of this region. The university is in nascent stage of development and after my humble contribution to the development of University of Swat, I am looking forward to a very productive and positive contribution to the development of FATA University located in the Tribal Sub Division (TSD) Darra Adam Khel, Newly Merged District (NMD) Kohat, where my grandfather once lived on always top very high of the people of the area. It is so heartening to see the area merged into Khyber Pakhtunkhwa in proper setup being developed as part of the development initiative taken by the Government in the large interest of the public. These efforts will make the life of people easy in this part of our beloved country and in the suffering of people will ultimately end. As we all know, this region has been suffering (for decades) which affected the process of development to a great extent. I am looking

forward to a speedy and strong development goals achievements focusing on my vision and plan for higher education in the region. I am hopeful that with the help and support of government and local population we will achieve our targets. May Allah help us in our vision, mission, and good intentions.

**Prof. Dr. Muhammad Jahanzeb Khan**  
Vice Chancellor

# Executive Summary

FATA University was established after the promulgation of the FATA University Regulations-2013. Prof. Dr. Mohammad Tahir Shah was appointed as the first Vice Chancellor of the university. The Government of Pakistan has allocated Rs. 4.7 billion for the phase wise establishment of full-fledged FATA University. In the first phase, the CDWP has approved a PC-1 amounting to Rs. 1.593 billion for five years in April 2016 and an amount of Rs. 250 million was released by HEC for the year 2015-16 in this regard. The PC-1 project includes Infrastructure Development, Human Resource Development and Procurement of equipment and furniture etc. Another PC-1 amounting to Rs. 4.008 million for the "Establishment of Project Management Unit (PMU)" was approved by the FDWP in April 2016. The PMU has been established in a portion of Government Degree College (GDC), Darra Adam Khel, FR Kohat, which is responsible for the infrastructure development of the university on already purchased 468 Kanal piece of land contiguous to the college building.

The first ever academic activity of FATA University started in October 2016 after shifting to the PMU in GDC, Darra Adam Khel, NMD Kohat. Before launching admissions in BS 4-years' degree program in four Disciplines i.e., Management Sciences, Political Science, Sociology and Mathematics in September 2016. The appointment of faculty and staff was completed through merit and transparency based process of selection. Three more disciplines i.e., Computer science, Geology and English were added in October 2017. To run these departments the appointment of the new faculty and staff and the admissions of students were completed before the start of the Fall Semester in October 2017. The existing building does not suffice the requirement of the university, therefore, the construction of its own infrastructure on the acquired piece of land has been expedited.

Being a newly established university, the management of FATA University has been facing huge challenges but due to its continuous efforts, devotion and dedication most of the hurdles have been taken care of and numerous achievements have been made. These achievements are briefly discussed as follows:(1) two

PC-1 schemes worth Rs. 1.593 billion and Rs. 40.008 million have been prepared which have already been approved, 2) a renovation work in the portion of Degree College was completed in shortest possible time before shifting, (3) a versatile website of FATA University was developed for displaying the regular information, (4) the merit based appointment of faculty and staff has been done through open competition, (5) admissions in seven disciplines have been carried out so far, (6) four academic years are close towards its completion (7) the Selection Board and various other committees have been constituted for the smooth running of the affairs of the university, (8) the statutory bodies such as Academic Council, Finance and Planning Committee, Syndicate and Senate have been constituted and several meetings of these bodies have been called so far, (9) twenty overseas scholarships as per provision of PC-1 were advertised and Eighteen qualified candidates have been awarded overseas scholarship for carrying out Ph.D. studies in the universities abroad, six among these candidates have already left abroad for higher studies. The remaining scholars have already been selected and they are in a process of going abroad (10) a consultant firm was hired for the preparation of Master Plan and Detailed Designing, (11) the Master Plan and Detailed Design has been approved by the HEC Technical Review Committee and the pre-qualification of the construction firms has already been done, (12) the whole civil work has been divided into seven packages, (13) the work orders to the pre-qualified firm for all the seven packages have been issued, (12) the construction work on the infrastructure of all the seven packages is underway with great acceleration, (13) a separate electric feeder for FATA University has been approved by TESCO and the installation work has been completed and the University is now having independent uninterrupted supply of electricity, (14) the internet and telephone facilities have been provided through fiber optics, (15) various types of students' societies have been constituted and these societies are involved in arranging workshops / seminars and other extra-curricular activities in FATA University. These societies have already arranged several workshops, seminars, and Book fairs for enhancing the intellectual capabilities of the students.

# About FATA University

The establishment of an institution of higher learning in the Federally Administered Tribal Areas (FATA) remained the long-standing demand of the people of this region. The plan for establishing a University of international standard in FATA was finally conceived when the former Prime Minister of Pakistan, Mr. Yousaf Raza Gillani announced its establishment during a meeting with MNAs from FATA on January 16, 2009. However, the project got delayed due to a number of reasons until the former President, Mr. Asif Ali Zardari, approved the FATA University Regulations in May 2013. Afterwards, Government of Pakistan included a project titled "Establishment of FATA University" in PSDP (HEC) 2015-16 at an estimated cost of Rs. 4.7 billion with the allocation of Rs.250.00 million for the FY 2015-16.

In the meanwhile, Mr. Mehtab Ahmad Khan Abbasi, Governor and chancellor of FATA University took keen interest and expedited the process of the establishment of FATA University in the erstwhile FATA region. In this regard, FATA Secretariat and Ministry of SAFRON started the process of appointment of the Vice Chancellor. The search committee constituted for the purpose interviewed the shortlisted candidates and recommended a list of three names for the consideration of the then Chancellor/Governor KP, Mr. Mehtab Ahmad Khan Abbasi. The Notification for the appointment of Prof. Dr. Mohammad Tahir Shah (T.I.) as the first Vice Chancellor of the University, after the approval of the Chancellor was issued vide FATA Secretariat Notification No. PS/E/100-96 (Vol-10) / 412-24, dated 13-01-2016 and the newly appointed Vice Chancellor assumed the charge of his office on January 18, 2016.

Soon after assuming charge, the Vice Chancellor started his activities in his camp office established in the National Centre of Excellence in Geology (NCEG), University of Peshawar where he was the Director before starting the new assignment. The faculty and staff of the NCEG extended full support in the routine matters to the VC and also the facilities of the NCEG were used in the initial stages which is highly appreciated. The Vice Chancellor started work on the preparation of the two PC-1s for obtaining funding for the smooth running of the affairs of the university. A PC-1 titled "Establishment of FATA University" was

approved by the CDWP in April 2016 at a cost of Rs. 1.593 billion. This project includes Infrastructure Development, Human Resource Development and Procurement of equipment, furniture etc. Another project titled "Establishment of Project Management Unit (PMU)" for FATA University was approved by FDWP at a cost of Rs. 31.488 million. However, the scheme was revised and approved at a revised cost of Rs. 40.008 million by the FDWP in its meeting held on February 23, 2016. Accordingly, the PMU was established in a portion of Government Degree College, Darra Adam Khel which is responsible for the infrastructure development of the university

FATA University was inaugurated by the then Governor Khyber Pakhtunkhwa, Engr. Iqbal Zafar Jhagra during inauguration ceremony on December 5, 2016. In this way the university development process got momentum and in a very short span of time the university started its academic activities. By that time four to six semesters in the BS programs of various disciplines had been completed. Initially, the university launched four years bachelor programs in Management Sciences, Political Science, Sociology, and Mathematics while three more disciplines such as Computer Science, Geology, and English were started in September, 2017.

The full-fledged university will be completed in various phases. The FATA Secretariat, in consultation with the parliamentarians of FATA, purchased land measuring 266 kanals at Akhurwal, Darra Adam Khel, NMD Kohat through a development project approved by FDWP. The Governor Khyber Pakhtunkhwa, Engr. Iqbal Zafar Jhagra, during his visit to the university directed for the purchase of additional land in view of the university's future requirements. The scheme for the procurement of 202 kanal, contiguous to the already purchased land was approved as a non-ADP scheme at FDWP level at a total cost of Rs.141.4 million. The demarcation of 468 kanal land has been made and consequently the purchase has been finalized. The infrastructure development (i.e., boundary wall with main gate, 50000 overhead water tank, tube wells, academic blocks, administration block, main library, community centre, gymnasium, students & faculty hostels, Family Housing and external work including roads, pathways, sewerage etc.) on the campus is in progress.

## Vision

A leading institution of higher learning recognized for its quality and transformative education which will create a generation of human resources to successfully meet the global challenges.

## Mission

The primary mission of the university is to expand the frontiers of human knowledge through provision of excellent conditions for learning and research while the other important aspects of the mission include:

- To produce graduates of worthy character and sound judgment.
- To provide excellent instructions, conduct relevant research and foster community engagement that produce highly competent graduates necessary for the development of country.
- To bridge the gap between academic knowledge and professional skill.
- To create adequate academic and physical infrastructure for high level performance.
- To provide adequate facilities to students for effective prosecution of their studies.
- To build institutional networking for knowledge sharing.

## Goals

FATA University was established in 2013 under the FATA University Regulations. It started its Academic Session in 2016 in order to pursue the following goals:

- To provide the best undergraduate and postgraduate educational experiences
- To provide highly qualified faculty of the university in strategic areas where needed
- To impart goal-oriented high level teaching and research
- To establish research and scholarship into every discipline of the university
- To establish interdisciplinary relationship with other teaching and research organizations
- To organize conferences, seminars, workshops and refresher courses in emerging fields
- To collaborate with academia and industry, both at national and international level for promoting teaching and research
- To develop world class facilities to support faculty and student research and their creative endeavors
- To ensure that every degree of the FATA University continues to grow in value.

# Student Enrollments

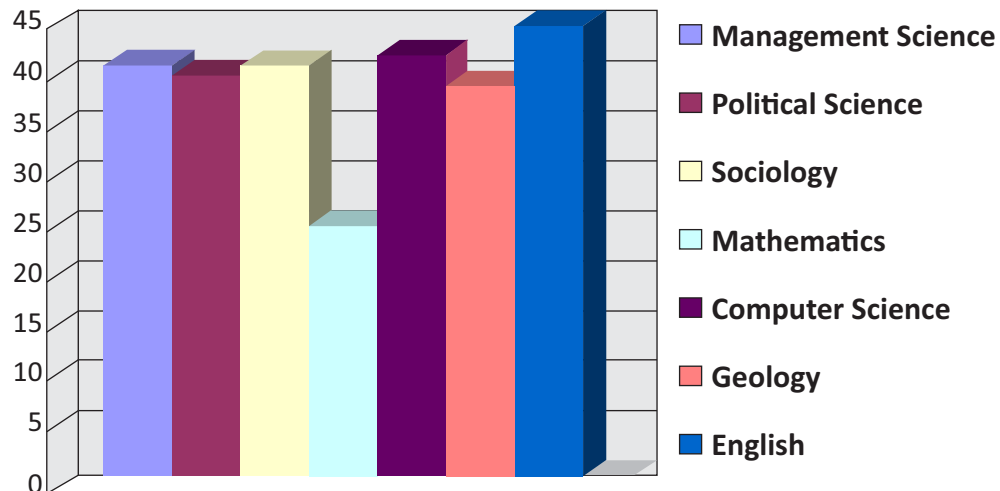

Admissions were announced through the national daily newspapers, websites and wide circulation of pamphlets. As a newly established university in tribal districts of Khyber Pakhtunkhwa, less number of applications was received in the first year (September

2016) but during 2nd year (September 2017), third year (September 2018), and fourth year (2019) the number increased. It is hoped that more number of students will be enrolled once the University's own infrastructure is built.

## MS and Ph.D Programs

FATA University is a new establishment which is following the PC-1 provision for the courses to be started each year. The University is having a limited space and only need based faculty positions have been filled due to which the MS and Ph.D program could not be launched at the moment. However, in near future after the completion of ongoing construction and the return of some of the scholars sent abroad, the process for launching of post graduate degree programs will soon be started.

## Academic achievements

### Courses offered

During Fall and Spring Semesters of Session 2020-2021, 487 credit hours courses were offered in seven disciplines. These courses were taught by both regular and visiting faculty members. The titles and contents of the courses offered in each disciplines, during each semester, are already approved by the HEC Curriculum Committees and the Syndicate of the University. The criteria and rules regulations set for the semester system by the HEC are strictly followed.

# Other Important Activities

- The Directorate of ORIC, FATA University organized one day Seminar on Research Proposal & Report Writing in the Main Hall of the University on 19th Nov, 2020. The Guest Speaker of the occasion was Dr. Muhammad Zeeshan (Assistant Professor, City University Peshawar). The Purpose of Seminar was to highlight the key points in research proposal and report writing and to enhance research skills of the students as a Research Beginners.
- The Directorate of QEC FATA University, organized a One Day Training Workshop on the topic "Teaching through Microsoft Teams" on Tuesday 22nd December, 2020 in the Computer Lab # 1 of Fata University. The Guest speaker was Ms. Noreen Fayyaz khan. The purpose of the workshop was to train the faculty on Microsoft Teams software for creating a team, adding students, scheduling a meeting, delivering the Lectures and uploading assignments.
- The Department of Computer Science conducted a series of online training sessions with faculty and students of FATA University for effective online teaching and learning through MS Teams, Google Classroom, Google Meet etc. in the Covid-19 pandemic.

## S# 16: RESEARCH JOURNALS

Currently, FATA University does not publish any research journal. However, the Faculty of Management and Social Sciences is working on launching the

Journal of Management Sciences.

## S# 18: RESEARCH COLLABORATIO

## S# 20: INSTITUTIONAL LINKAGES

The linkages with the national and international universities and other teaching and research organization are being made by signing the Memorandums of Understanding (MoUs) and establishment of other linkages are underway. According to these linkages the newly established FATA University will be strengthened by seeking help and guidance from the faculty and staff and utilizing the laboratory, IT and library facilities of these universities / organizations. Eleven MoUs have already signed since the inception of the University. But, none of the MoU has been signed by the university in this pandemic.

## S# 34-35: STRENGTHENING PHYSICAL INFRASTRUCTURE

### Development projects:

All the developmental works have been performed as per budget provisions of the PC-1 schemes of HEC and PMU.

## ADMINISTRATIVE ACTIVITIES

10th Syndicate Meeting

The University has held the 10th meeting of the Syndicate on December 23, 2020.

# CHAPTER-2

## Research & Development

## Research & Development: An overview

At present due to unavailability of the state of the art laboratories for being newly established University, the faculty of FATA University is mainly involved in the undergraduate level teaching. However, the faculty in collaboration with the researchers of the other universities are publishing their individual research.

### Publications

The following research in the journals of international repute and the Abstract in the Abstracts volumes of the conferences / workshops have been published by the faculty during 2020-2021:

## Digital Library

The university has initiated the process of HEC Digital library access. The process is near to its final consideration and the service will be available soon.

## PERN

The University has availed PERN facility (Package P2, 48MB) but the process of acquiring the PERN facility has been started from HEC through membership and soon we will be able to get HEC PERN Internet facility of 48 MB along with additional useful resources like Turnitin for plagiarism checking, licensed software and video conferencing.

## Video Conferencing

The video conferencing facility is underway in FATA University and the university will soon avail this facility.

## Campus Management Solution

The FATA University has a proper management system which is controlled by the faculty and staff of the University. All sorts of information for students, staff, faculty and general public are being provided on the FATA University website.

## Purchasing of Computers, IT Equipment's and Electrical Items

Various electric, computer and IT equipment such as Desktop Computers & Laptops, Computer Lab Equipments, Multimedia Projectors, Printers & Scanners, Furniture & fixtures, UPS, Generator 50 kva, PBX Exchange System, CCTV Digital Surveillance System and Air Conditions & stabilizer have been purchased by following PPRA rules.

## Server Room / NOC (Operational Network infrastructure)

A Server Room has been established which is having HP ProLiant Edge Rack Server, 42 U Toten Racks, Fiber Connectivity, Layer 3 and 2 Manageable Switches, Digital Surveillance system and UPS & Air condition

## Fully Equipped Computer Labs

There are two computer labs with the following basic facilities and state of the art equipment such as:

- 60 Core-i5, 8th Generation, Computer Systems
- Internet facility, 48MB shared
- Multimedia projector 3200luminous
- Proper seating and projection screen
- Uninterrupted power supply, 10-KVA

- Air-conditioned environment
